

ASCOJET Dry Ice Blasting Technology - the right solution for a wide variety of cleaning requests

ASCO's product range includes various dry ice blasting machines for many different applications. Additionally a variety of nozzles and other accessories to our dry ice blasting machines is available. Please contact our specialists for detailed information. They will also be pleased to be at your service for consulting in general, presentations or instructions.

ASCOJET 608 The Entry Model

With the ASCOJET 608 you get a **small and low-cost** dry ice blasting unit suitable for the removal of light contaminations.

Specifications

Dimensions (L×W×H)
incl. wheels and handle:
635 × 480 × 830-1'130 mm

Weight empty:
approx. 62 kg

Content pellet hopper:
approx. 6 kg

Dry ice consumption:
5-20 kg/h (stepless)

Blasting pressure:
3-7 bar

Power/air consumption*

* at 6 bar with standard nozzle

ASCOJET 908K The Economical Specialist

The handy ASCOJET 908K was specially developed for the challenges of the plastics industry and offers both **high performance and low air consumption**.

Specifications

Dimensions (L×W×H)
incl. wheels and handle:
550 × 550 × 730 mm

Weight empty:
approx. 48.5 kg

Content pellet hopper:
approx. 9 kg

Dry ice consumption:
20-40 kg/h (stepless)

Blasting pressure:
1-7 bar

Power/air consumption*

* at 6 bar with standard nozzle

ASCOJET 908 The Small Industrial

The handy ASCOJET 908 is suitable for industrial applications with the need to clean several times a day and if **easy handling** is of highest priority.

Specifications

Dimensions (L×W×H)
incl. wheels and handle:
550 × 550 × 730 mm

Weight empty:
approx. 48.5 kg

Content pellet hopper:
approx. 9 kg

Dry ice consumption:
20-40 kg/h (stepless)

Blasting pressure:
1-7 bar

Power/air consumption*

* at 6 bar with standard nozzle

ASCOJET 1701 The Industrial Allrounder

With its powerful one-hose-system, the dry ice blasting machine ASCOJET 1701 is the **ideal combination of high performance and easy handling**.

Specifications

Dimensions (L×W×H)
incl. wheels and handle:
730 × 700 × 1'060 mm

Weight empty:
approx. 84 kg

Content pellet hopper:
approx. 23 kg

Dry ice consumption:
25-80 kg/h (stepless)

Blasting pressure:
1-10 bar

Power/air consumption*

* at 6 bar with standard nozzle

ASCOJET Combi blaster 1708 The Flexible Abrasive

The ASCOJET Combi blaster 1708 combines gentle cleaning with dry ice pellets with the **additional abrasive effect of a carefully selected additive**.

Specifications

Dimensions (L×W×H)
incl. wheels and handle:
730 × 700 × 1'060 mm

Weight empty: 84 kg

Content pellets / additive:
approx. 23 kg / 5 kg

Dry ice consumption:
25-80 kg/h (stepless)

Additive consumption:
approx. 30 kg/h

Blasting pressure:
4-8 bar with additive
1-10 bar w/o additive

Power/air / additive*

* at 6 bar with standard nozzle

ASCOJET 2001RX The Powerful

The very powerful double-hose-system of the ASCOJET 2001RX offers **highest performance and maximum time savings** - ideal if a maximum of productivity is required.

Specifications

Dimensions (L×W×H)
incl. wheels and handle:
730 × 700 × 1'060 mm

Weight empty:
approx. 89 kg

Content pellet hopper:
approx. 23 kg

Dry ice consumption:
30-100 kg/h (stepless)

Blasting pressure air:
1-16 bar
Blasting pressure dry ice:
1-10 bar

Power/air consumption*

* at 6 bar with standard nozzle

ASCOJET 2001RX pro The High-Performer

The extremely powerful double-hose-system of the ASCOJET 2001RX pro with pressure up to **20 bar** stands for maximum performance for the **high-end use**.

Specifications

Dimensions (L×W×H)
incl. wheels and handle:
730 × 700 × 1'060 mm

Weight empty:
approx. 92 kg

Content pellet hopper:
approx. 23 kg

Dry ice consumption:
30-100 kg/h (stepless)

Blasting pressure air:
1-20 bar
Blasting pressure dry ice:
1-10 bar

Power/air consumption*

* at 6 bar with standard nozzle
